HAYMATIC DIGITAL

THE PROFESSIONAL CHOICE

The moisture content in straw & hay has a major influence on the economy when - pressing, storing and trading it. Hence it's vital to know the correct moisture content. Haymatic provides you with accurate, fast and reliable readings.

- Digital reading of moisture in the range 10 -80%
- Average function for improved accuracy.
- Different spears / probes available as accessories.
- Accuracy, approx 1 %

The reference instrument. Used by the Danish CHP-industry

QUICK, EASY AND ACCURATE READING OF MOISTURE
